

Tuesday May 4th 2021

Dear Myradh,

I am writing to you to submit my CV for consideration for the position Social Media Assistant which I came across on LinkedIn.

I'm currently self-employed working within the music industry. I am currently working with the Music Managers Forum on their Accelerator programme which is sponsored by YouTube Music. I've been working on reporting on the success of previous programmes as well work on other MMF projects such as the Artist and Manager Awards.

My skills lie in social media content creation and curation, design, video editing, writing copy, news articles, newsletters and events based digital content and promotion. I have a varied skillset and I'm looking for a varied part time role and feel that the role at Handmade could be a great fit. I also manage personal music projects ([Futuretape](#) and [HULLAH](#)) and run a series of online music workshops I created for young people in partnership with Cardboard Citizens called [Making Music From Nothing](#).

I have experience in using Adobe suite, Final Cut Pro, Logic Pro, Google Suite, SEO, Google Analytics also.

I have examples of my work and experience which is best viewed on my LinkedIn but I have some examples of my work over here on my portfolio: <http://hullah.me/category/design/>.

I hope my CV and work is of interest to you.

I look forward to hearing from you.

Best,

Charley Hullah
